Those who are generous are blessed, for they share their bread with the poor – Proverbs 22:9

Dear Jeff Cherubin Domond Foundation Contributor,

A heartfelt thank you for contributing to the foundation this year.

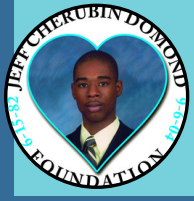

Due to the pandemic, political changes, and power struggles amongst the Haitian people, your ongoing support is sincerely appreciated. The children at our orphanage, the students at our school, and the patients at our hospital and dialysis center all benefit directly from you, your prayers, and your donations. From Joe and everyone at the foundation—both Haitian and Americans working for us alike—a sincere thank you for your support!

Since the pandemic began, we have had to navigate new obstacles

and hurdles due to the state of the world—but we have faced those hurdles head-on and have good tidings to share with you and our donor community.

After a two-year pandemic postponement, we were happy to celebrate our 17th Annual Charity Dinner hosted by our loyal and loving supporters, Chris and Pat Shaner, at their beautiful home in Claremont. The dinner was attended by 100 of the foundation's sincere supporters and we are grateful for such a great turnout after a long-awaited return.

Volunteers helped with setup, cleanup, and donated generously to our cause through the evening's auction and raffle. The evening featured dinner, drinks, and live music with a beautiful view (and sunset!). We welcomed parishioners and church leaders from Our Lady of Assumption as well as friends from nearby parishes and dioceses. Thanks to those of you who came to be a part and we look forward to seeing you again next year!

We are pleased to share that the foundation has recently opened a dialysis center in Port-au-Prince, Haiti. Unlike here in the US, when one is prescribed dialysis in Haiti, it is a matter of life-and-death. We are honored to provide this basic need and look forward to the ripple effect this medical offering will have in the community for years to come.

Our school, orphanage, and water filter systems all continue to serve our locale which enables us, every single day, to live out our mission to bring health and education to Haiti.

Our humble leader and servant, Joe Domond, visited Haiti recently to dedicate the new hospital (see *Page 1*). The hospital, named The Centre Hospitalier Chirurgical Jeff & Rita Domond in memory of Joe's late son and wife, was dedicated on June 15.

June 15 was and is a special day as it is Jeff Domond's birthday.

His memory is why the foundation was started and this hospital is another way his memory will carry on.

Our goal with the hospital is to provide medical, dental, vision and physical therapy care to our patients while providing meaningful work for local doctors, nurses, and staff. The short- and long-term benefits this hospital will have for the community is indescribable yet undeniable. A huge thank you for helping us in making this dream a reality.

This summer, we are engaged in our annual missionary appeal. Deacon Joe will be speaking and ministering in the Los Angeles and Orange County Diocese in an effort to garner support for our ongoing projects at the school, orphanage, hospital, and water systems.

Despite ongoing struggles and strife in Haiti, our foundation and its

vision remain strong: to create real and lasting changes to inspire and elevate those we serve by giving them hope and a future.

Our mission to educate, sponsor, and care for the less fortunate who might otherwise be forgotten in the rural communities of Haiti is steadfast. Those in desperate need of the most basic essentials of life, educational tools, nutritious foods, potable water and medical assistance need our help.

Deacon Joe is grateful to continue carrying out this mission and we truly appreciate YOU and YOUR helping hand.
